### GF-THERMO DIGI Multifunctional Heat Transfer Machine FUSION MACHINE

GF-DIGI THERMO Multifunctional heat transfer machine, which enjoys customer confidence since its inception. It is an easy to use eco friendly device which caters desired results in a given time frame.

**Features:**

- Advance technology of multifunctional heat transfer machine. Oil Based Heat Roller.
- Works on uneven fabric, cut pieces and roll to roll printing.
- Its multifaceted features includes heat transfer printing as well as cotton cold transfer printing.
- Enables pneumatic pressurizing for flexible control of volume of pressure. Allows close and constant temperature control. Adjustable pressure system for effective solution.
- Excellent print quality and ink penetration. Ensures no color difference of fabric before and after the transfer printing.
- Enclosed wrapping of the roller ensures protection from heat loss problem. Less power consumption and man power required, thus cost effective printing.

**Technical Details**

Drum Size : 600MM/60CM.  
Power : 42 KW  
Temp Range : 0- 399.  
Speed : 200 MT/HR.  
Dimension : 14L x 8W.

**Best for Textile and home furnishing, sports wear and Garments**
